

I was misgendered here today.
Someone referred to me as:

My pronouns are actually
 she/her he/him they/them

In order to avoid misgendering someone,
it is best to adopt gender neutral language until
you ask someone's pronouns.

eg: "folks" instead of "ladies and gentlemen" or
"they" in lieu of "he" or "she" for an individual

Hi there!

Here's three things about me:

1. I like _____.
2. I am _____.
3. My pronouns are
_____.

I am more than my gender,
but it's important to use the
pronouns that people identify with.

Please make sure not to mispronoun me in
the future, and remember you can ask!
